(handwriting)

(To Prof. Walter Libby, Pittsburgh)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

12.IV.18 (Apr. 12, 1918)

Dear Libby

That is a fine list of lectures - most interesting - & they would make a good volume. Would Saunders take it as supplementing Garrison? I hope your book goes well. - it should as you have put matters very clearly. I have S. & T. Glad you like Singers vol. He is back - full of go. Mrs. S. has a great work in hand - a study of all the Eng. Scientific Mss. We are having another bay enclosed.

I did not realize that you sent the S & T vol. It came from the publisher. I am struggling with my Catalogue raisonné - very hard to get anything done in these days.

Best wishes

Sincerely yours

W<sup>m</sup> Osler
