Dear Davison,

I have talked over matters with Bobbie E. & he feels that it would be better to go to you. He is too late for work this term, & it would take 3½ - 4 years at least to finish- He is working with Gardner. I will send him on to Gorden. It will be so good of you & the L. of your L. to look after him. He is very bright & should soon be helpful. How I wish I could see you all; but it is hard to get away. Dreyer is in America with his flying business. Cliveden keeps interesting. meakinis in charge of med. is a.l. & doing a big research in gas. No fever! Love to A.

Yours ever,

Wm Osler
