Dear W. Cushing

I have just received your note about Sir W. Williams' autobiography. What I regarded as the most interesting postcard from Sir W. was the one I sent you to America (mentioning Samuel Butler, etc.), together with explanatory data.

In regard to "Aspects of Death" - the 3rd edition (1918) of which I dedicated to Sir W. with his permission: - I received following

29. VI. 1918 13 Northam Gardens, Oxford.

Dear kind man!

Thanks so much for the 3rd edition with the touching dedication, which went to my heart.

It is most generous of you and I appreciate it very much. About America.

Looking over the work I am again impressed with the amount of work you have put into it - and such good work, too! Love to the young man, [i.e. my father]

Sincerely yours Wm Osler

Dear friends
