Dear Jacobs.

Is it not wonderful how the dear old Faculty has thriven financially? Think of those days under the M. Historical Soc! It is nice to get a report of the Frick Fund and to see that the interest is kept up. The next thing to do is a new Hall in place of the present one which is only a make-shift. There is plenty of room and that should be a really handsome meeting hall. I hope to be able to help with it.

We are making this house freehold, and I am arranging to leave it to the University as a permanent home for my successors. I am brooding over a scheme for Revere's books & my non-medical ones which were to go to him.

Such busy days here - we had a nice wedding from the house last Saturday - Reggie Fitz and Phoebe Wright. The ceremony was in the Latin Chapel at the Cathedral. Jason Mixter, Forbes and Geo. Denny were able to be here. Some one comes in every day. The <sup>Robb's</sup> Robins boy, Hampton, has been here 4 days with the flu. Such a gem of a boy - just like his mother.

A few treasures come in now and then - the ed. prin. of Plato (aldine), and the ed. prin. of Copernicus (1543) for which I have been looking for years.

Sue Chapin is doing a wonderful work in London. She is a trump and such a keen business woman. The 4th of July in London was an extraordinary demonstration.

Love to Mrs. Jacobs.
