Oxford.

Letter (Script)

24. 7. 18.

Dear Archie,

I do hope your leave will not come while I am away. I shall be at Cambridge 6-9. Colchester 9-10 Oxford 10-13 Lyme Regis 13-20 Newton Abbot 21-23.

~~I got one or two small items at the Huth sale~~ nothing of moment. I missed a couple of good incunables. Some good Linnaeus items, a new Malpighi and several biographies in today.

Let me know definitely when you are likely to be over. A week at Lyme Regis with the girls would do you good. My Class. Ass. address is Jan 7th. Shall probably take "The Class. Tradition in Science" as Subject.

Love to Bill and to Martin who writes very enthusiastically about you both. Bring over any material.

Yours,

W. O.

Tell Bill that his old chum Strong is here reading proofs of his Trench fever work. What an experience to have had in pneumonia. We might have a few days in London together.
