13, Norham Gardens,

Oxford.

Dear Dr. Abbott,

I do not believe it possible to get you ever officially. I had a long talk with Adami & other men at H.Q. & A. writes the enclosed letter. It is too bad. Keith is hard hit at the R.C.S.

Billy Francis could not be dislocated from his present billet. He is wise as he seems to be doing it well. Archie Mallock is splendid. What yeomans work you have done in keeping up the Journal, & going on with the Museum organization. You should have ^{over} Rhea ~~men~~ soon, so much better. We keep well & there is so much to do & yet I seem to get nothing done - except in the way of my books. I hope your sister is better.

Yours sincerely,

W^m Osler

Lady Osler sends love.
