

CUS 417/126.47

From the Regius Professor of Medicine, Oxford.

Letter (Typewritten)

23 Aug. 1918.

Dear Archie,

I have heard from Holmes about Bill and have written to Chisholm. There should be no difficulty in getting suitable work over here. We shall look for you early in September. I wish you could have come to Lyme Regis.

So glad they have taken your "turned soldier" for the U.M. Send on the endocarditis paper as soon as possible. Duchenne would be a good subject for a paper, he was a fine character.

Yours sincerely,

Wm. Osler.
