13, Norham Gardens,
Oxford.

Dear Davison,

How is Bobbie Emmons ? I hear he has not been well & have not had a line from him for weeks.

All well here. Dr. Dyer is just back from a five months trip in America, full of enthusiasm. Scarcely a day passes without a visit from some Am. or Canadian Doctor. The Hospitals are getting well organized. I wish I could look in on you & see the laboratory at work. The Radcliffe very busy & many cases of exceptional interest. Clevedon is full. Mrs Astor has another baby. Lady Osler joins me in love to you both. Where is Penfield ?

Sincerely yours,

(signed)
