Dear Mrs. Myers

Please ask the M.G.H. people to send me a set of the Ether Day Addresses and also, if there is one to spare, the large size copy of the Jubilee Celebration.

I am getting on with the Anaesthesia Catalogue but it is very difficult to get original items. Morton's son sent the other day the Letheon Paper and the Pamphlet on the mode of administration of Ether; also some loose numbers of the B.M. & S.J., with Bigelow's and Morton's original papers.

I will send you soon a list of my duplicates. I have not yet got volume 35 of the B.M. & S.J., but your list is a good substitute.

Yours sincerely,
Wm. Osler.
