Dear Mrs. Myers

My paper should be out in the next no. of the Annals. Why do you not prepare a note on Morton's Letheon -- giving the editions, title pages, etc.? It would be an interesting study. See if the B.M.L. (Boston Medical Library) has the first edition. Who in Boston has a good Anaesthesia collection?

All goes well. I have just returned from a trip to the American Hospitals in the south of England. The U.S. has to finish this business. Dr. Washburn is doing a great work here. 'Tis splendid to have him over.

Sincerely yours,
Wm. Osler.
