Oxford.

Dear Thayer

I am so distressed to hear of Harveys illness. Do get him over to us for a rest & change. It may be one of these polyneuritis forms of which there have been a good many cases & upon which Bradford has sent a big paper to the Q.J.M. most of them recover rapidly. I am writing to him at once.

No possibility of getting over for the Tb. meeting- so sorry.

We are in the midst of a severe Influenza outbreak - much pneumonia & very fatal.

Hearty congratulations on the promotion.

Love to you all.

Ever yours.

W^m Osler
