Dear W. S.

How splendid it will be to see you on Saturday. The Trains are 9<sup>50</sup>.  
1<sup>30</sup> & 4.<sup>45</sup> - let us know which I asked Lady Harcourt at the Am.Hospital 98. Lancaster  
Gate to get you to see a case, should you be at the Hospital. She wired me to come  
today but I could not leave. Love to Rolleston. 'Tis splendid the good work he  
has done & the recognition he has received. We have not had an Admiral in the profession  
for years; and General Thayer has a melliflous flavor!

Yours ever

W<sup>m</sup> Osler
