To Sir J. W. Y. M.

Letter Script.

Oxford.

10. XII. 18.

Dear J. Y. W. ~~X~~.

Such literature, "blotecture", old Dean Colet, would call it, is surely the perquisite of the President!

Wilson? is a good fellow born out of due time.

The P.G. Scheme is now in hands of Spec. and the Special P.G. Schools, who should report, Then we should call a Gneral Meeting to discuss the whole business. If your friend could come down with something for the Bldg. the whole business would be immensely helped. I will call at 3.50 next Monday and talk over matters with you.

Yours,

Wm. Osler.
