Dear Strong

What a splendid group of treasures! Those early mss of Pasteurs are most valuable. & just what I want. They will go in nice covers & be in excellent company. These are the very sort of things I want in my Bibliotheca prima - the original documents of the great men in science. The Clemenceu essay is most interesting. I did not know that Kobin issued a 2nd edition. It was surely a great compliment to the young histologist. What a wonderful old man! I hope all goes well with you both. Best wishes for 1919. We look forward to having you both here on your way home, when the time comes.

Yours sincerely
