Dear Hurd,

X
I am delighted to have that monograph of Brooks. What a splendid observer he was! Has a bibliography of his writings appeared? I should like to have one for my library.

Love to the girls.

Sincerely yours,

WM. OSLER.

Med Tablet just in from the Assur. Library of Sennacherib 750 (?) B. C. - a perfect gem. Cushing is here in fine form having completly recovered from his war neuritis.
