Letter Typewritten.

To Sir Rolleston.

13 Norham Gds.  
Oxford.

31st. Jan. 1918.

Dear Rolleston,

Has anything further been done to get Walker to give us the story of the U. S. Army anti venereal campaign! It would be useful, particularly in connection with the present discussion about prophylaxis.

I could write to General McCaw and to Walker if you wished.

Sincerely Yours  
Wm. Osler.
