13, Norham Gardens,

5th February, 1919.

Dear Shattuck,

So glad to have yours of January 2nd. By this time George will have reached home and you will have had first-hand accounts of the family. I wrote the other day and told you of his generosity. I am spending the money with great pleasure and profit. Send me full details when they are ready of the School of Industrial Medicine, as I am Chairman of a Committee dealing with a department to be organized in South Wales on this subject. There is a most promising field. Send me the first number of the Journal.

Greetings to you all.

Sincerely yours,

W<sup>m</sup> Osler.
