

March 5. CUS 417/127.148

To George Iles, Esq., N.Y.

Thank you for Thomson's bibliography which will be most useful. I am after the original papers of the big men who did the work. I would like another copy of your Flame, Electricity, and the Camera, as the one you sent was borrowed and never returned. I should like so much to have you represented in the library. ,Poor Jack McGree was a great loss . . .
