To Dr. Samuel Walter Kelley, Cleveland.

Thank you most heartily for Handerson's book on Gilbertus  
Anglicus. To tell the truth, I thought Dr. Handerson had died  
Library. some years ago. His edition of Baas I have known of course for  
years. I have looked over the list of old books you have in  
the library, and I am sending one - Sydenham's Observationes  
medicae, 1676, one of his original editions and very scarce.
