Dr. Streeter, Boston.

Summer
Sch. on
Hist. of
Med.

I was greatly disappointed not to have you over here. A year from next Summer I had hoped to tap your ventricles. we shall hope to have 4 or 5 weeks' Summer School for students of the history of science. I hope you will be able to come over and give the men 2 or 3 of your interesting "talks".... I will take Guainerius to Gordon Duff who will be interested.
