(letter, script)

Sunday April 6th

[19]

----- What do you think has happened
this eve - Sir William and I are having supper
alone !!!. ----- Sir William will be in town
three days next week at the B. N. meeting for
Americans and Colonials - I am trying to get him
away to Cornwall for a week but he wants to go.

--- Sir William has just had a letter from Professor
Wenkbech in Vienna (he is Dutch & went there
from Strasburg, belonging in Grön^{ing}ingen [??]) March 5th
They were nearly starving, no milk - no potatoes - vegetables
meat - beans or rice and had only had tough mutton
& hard bread for ten days. It is sickening.
