Dear MacAlister,

Monday, 28th, 4 p.m. could we have a Committee room to discuss  
a Tb. Journal problem?

Some enterprising young men are trying to plan starting a new T.b.  
journal, and while it is none of my d b, I am trying to had them  
off and get a fusion with the British Journal of Tuberculosis (Kelynack's)  
and get the various ~~tb~~ bodies in the country interested so as to have  
a really first class journal.. Si

Sincerely yours,

Wm. Osler.
