Dear Adami,

That is a gem of a drawing - of which one sees a good many reproductions. We have two or three at the Radcliffe. I am so glad to have it. Thank you so much.*

About Billy F. I think he should go back to Montreal. I will talk with him about it. The Journal work would be very good for him, and I dare say he could in time pick up literary work of some sort. He is evidently not 'cut out' for practice.

Sincerely yours,
Wm. Osler.
