13, N.G. Oxford 13th July

So glad to have yours of 21 st June.- Very slow in coming through. I hope to see Dr. <sup>Chello, Mrs</sup> ~~Moran~~ on his return. We hear that conditions are improving, but let me know at any time of special wants. Tell our Wiener colleagues that they will not find any hard feelings against them in England. Of course the feeling about Germany is very intense and rightly so. It will take generations before there can be <sup>any</sup> ~~consideration~~ consideration. Lewis has had a big heart-clinique during the war and is virtually a whole-time man, doing now his teaching and research at University Hospital and acting as heart-consultant for the government. Mackenzie has retired to St, Andrews and we see nothing of him. Albutt keeps very well - P3! Let me know please of any special journals and papers I can send you.
