2 From the letter Institute, D. Harriette Chick: 5. VIII. 43
CUS417/T38.33

Sir William ^{Osler} has advised me to write to you, he has suggested that you would be interested in the recent work carried out in this Institute and elsewhere in England upon the role of accessory food-factors (vitamines) in the diet.

(A Commission of the Research Committee is still doing administrative work on this subject here in Vienna W)

Herb. Munnis - a
Scotclough - information who
filled about his visit
consider the work - J. J. J. J. J.
Physic.
