May 26.

Dr. F. R. Smith, Baltimore.

Books.

So glad to have your letter this morning and a good account of you all. I would like that Paré as I collect all the editions of the great man. I wish you could spend a few hours in my library - I am gradually getting a really first-class collection. The enclosed slip will give you some idea of my treasures... We had the great delight of a visit from Welch ten days ago looking just as young as ever.
