May 26, 1919.

Dear Simmons, I

I will send you enough for 2 or 3 columns in plenty of time. The photograph was sent last week, and another follows in case of accident. Wilson of the Mayo Clinic had some interesting ones taken which may be better than these professional ones.

It was nice to see Welch the other day - just as keen and active as ever. What a Godsend he has been in the profession!

I think you will have a good representation from here at Atlantic City.

Kind regards.

Sincerely yours,

(Signed) Wm. Osler
