

CUS417/128.113

(Letter to M. H. Spielman)  
(typewritten)

June 17, 1919.

13, Norham Gardens,  
Oxford.

Dear Spielmann,

I enclose you three letters about your Iconography from which, as you see, the Wistar Institute refuses to finance. I am greatly disappointed.

What do you think of Cushing's final suggestion? It would take 4 or 5 numbers of the Annals of Medicine, but the work would be very well done. I will consult with Wright at the London Hospital who is very keen about Vesal and who may know of some well-to-do anatomist who would undertake the whole expense. I am writing today to ask Tomes. Return me these letters, please.

Sincerely yours,

WM. OSLER

P. S. (handwriting)

I have sent on & proposed to a wealthy friend of anatomical amenity who may help.
