Dear Shepherd

Yours of the 4th just here. So glad you are better. Sharkey and I talked of you the other eve. They have been celebrating my 70th B-day. I enclose account of the presentation. All types of old friends were at the gathering - Jared Howard & Maggie Strathcona spoke a great (deal) about the old Montreal days. Poor Maude Abbott - I am awfully sorry for her - particularly if Oertel is appointed. Why not get Klotz who is a much better man? We are going to Jersey for six weeks. You will like Whitnell - who is a good anatomist, and a fine fellow

Love to the girls

Yours ever
