Pres. Dabney, The Univ., Cincinnati, been impossible to get away.

...As I wrote you, it has simply impossible to get away. I am tied up with University reconstruction work here of great importance in connection with the new Treasury Committee just appointed. It's too bad, for I had always had a hope some day to deliver an address on Daniel Drake and what he did for the profession in the West. I fear now it's a dream not likely to be realised. I am full of regrets about it.

A visit  
West.
