

Treasury  
Grants  
Committee.

July 24.

CUS 417/109.70

Sir George Newman, Board of Education.

I had hoped to be able to come up to-morrow, but I am so hoarse that I think it would be safer not to... I have written to McCormick (Sir William) urging that the Committee (University Grants Com.) approve of the immediate formation of clinical units at Barts, London, and University College and St. Thomas'. The Royal Free people should also be encouraged to proceed at once. They will need complete re-organisation within the next year to meet the heavy clinical demands of the big classes that are coming on. I am awfully sorry not to be present at the meeting.
