(Sept. 10, 1919)

Dear Boggs

Do not bother about the Chivers vol. - something of his is sure to turn up & I should like to have him in the B. literaria section. In the Cambridge Hist of Am. Literature I have been much interested in reading the section upon Simms - what a tragic life So glad you are back at Bay-View - great field for work. Your cases illustrating the law of dual coincidence are very remarkable.

I have been sweating over a revision of the Text book we hope to go to press before the end of the year - complete revision

This is a wonderful spot such sea & rocks. We have been in the water every day.

Yours ever

W^m Osler

Greetings to your boys
