Farquhar Robertson, Esq., Montreal Gen.Hospital.

Montreal
General
Hospital.

I was delighted to get your letter. Nobody knows better than I how much the Montreal General has stood for advanced clinical teaching. Conditions in Medicine now have changed radically, and the public is becoming keenly aware that their hospitals have much more to do than simply care for the sick - that they are great institutions for the study and prevention of disease, and laboratories of social service. My ten year association with the Montreal Gen. Hospital.
