Dear Sir

I beg to point out to you a
little inconvenience I have experienced
from your recent improvements in
Bolo Pt.

Formerly the opening from the
foot path into my coal vault was
at the top of the arch and the
largest load of coal could be put
in in a few minutes. Whilst was
flapping the foot path your people
have removed the opening ^{to a point} near
the edge of the foot walk. The un-
convenience is that as soon as a part of
the load is put in, the opening is
choked up and the man has to
