The Gasette

MONTREAL: MONDAY MORNING, OCTOBER 16.

On Monday night, as we were leaving the village of Beauharnois, to go somewhat further into the country, we heard a strange and awful sound, or concatenation of sounds. A numerous cavalcade came at full speed down the main street, and as they advanced, like that which pursued Lord Ullin's daugh ter; the trampling sounds drew nearer. Had we not had some inkling of what was going on, we might, possibly, have been much alarmed; but our alarm, if any, and we must confess we heard not without some trepidation, was dissipated by their turning sharp to the right about. The neighing of steeds, the shouting and yelling of men, the discordant sounds of cow horns, trumpets, tinkettles, marrow-bones and cleavers, pierced the stillness of the nightly air. We thought

of the Demon Hunt in the Black Forest, renowned in German legend, and of all the Cosmogony. It is the opinion of that enlightened nation that when an eclipse of the moon takes place, a great monster is about pleasant or convenient always to have one's very good care not to publish a word of i to swallow her up, and that by making a castle on a full war establishment. Besides, for the information of his readers and our's. correspondingly great noise, they can fright- even if the enemy had been beaten off with We feel confident and satisfied that the aten him off; and, accordingly, they do make all imaginable damage and contumely, a tempt to damage the late government in this the greatest noise possible, and when their beloved luminary regains her accustomed effulgence, they greatly pride themselves and damaged the integrity of its balconies The Governors of the College of Physion the skill and determination by which and casements. On the other hand, the beon the skill and determination by which which they have saved her from destruction which they have saved her from destruction were decidedly on a lee shore as to the law; Wednesday last. On which occasion Messrs. that of the Scotts, Johnstons, Elliots, or some other of the Scotch thieving border with deference to the superior judgment of Xavier Fontaine dit Bienvenu, Romuald clans, we forget which, nor does it matter. for they were all thieves, expressed in their motto, "Best riding by moonlight;" and they stand by their friend in her hour of obscuration with no doubtful fidelity. We thought of this, and we thought of many things, such as pass over men's minds after dinner and wine accordingly; but we wended our way on steadily, and left the roaring rout behind us. And sure we are, that neither Tartar,

louder or more infernal hillabulloo. In the morning we learned the particulars that a Canadian gentleman, of the Esculapian profession, having had the misfortune to lose it took to settle the independence of Greece levray of ————, and Mr. Lous Genand, Journal. his wife, and wearying of that single blessedness for which an ill-natured world says so many married men long, took to himself the Doctor paid a quiddam honorarium to the Doctor paid a quiddam honorarium to the will be seen by the announcement bride. Now this, according to Canadian ethics, and we are aware of no other creed tranquillity and good-will with all mankind, other column, that Mr. Arthurson's concert, in which the like is an article of faith, olives of communical bliss. is a very heinous offence, to be visited by pecuniary fine enforced by popular lawmuch an element in his mental composition, talents as a tenor singer, and we hope that Beauharnois get up a Charivari, besieged the house of the newly married couple, other. The circulation of the Mercury of the day.

The day intact, and its number of advertisements continue to be as liberally furnished as could be expected. A change in the proprietorship of the paper has taken place. From and after the 1st proximo it will be printed and published by T. Cary, on his

> The Megantic Agricultural Show came off with great eclat, on the 4th inst. It had ong been looked forward to with eager expectation, and fully realized the most sanuine anticipations of its worthy suppoters. The horned cattle exhibited were of a siperior description, displaying, particulary in the heifers and steers, great attention and care in breeding, and an attentive obsever would be forcibly struck with the manfest mprovement discernible from the old sock own to the calves, from which the fact was deducible that, in a very few years Megantic will be able to vie with any put of Canada for horned cattle, as she doesnow with sheep. The sheep were uncommonly fine, both as to mutton and wool. The tows looked as matronly as cows generallylook on such occasions, and no doubt were not a little amused with the display which was very respectable appearance. The yung point of attraction was a pen of calves oved y several individuals resident in the Tonthe numerous admirers of pork, and theres given rise. duy and night to all comers; and where hospitals are required for the very destitute, it proposes to receive them at once into all the ordinary hospitals of the country. Another and valuable feature in this circular is, that it contains plain directions, in simple language, sufficient for several hours' treatment, in order that time should not be lost whilst medical advances of the standard of the sufficient for several hours' treatment, in order that time should not be lost whilst medical advances of a communication such as this to go into details of treatment. There are, however, two points on which the commissioners of Health feel it will not be out of place to give an opinion—viz., the employment of frictions and the allowance of drink to the suck. The Commissioners cannot recommend that fluid applications are the time should be expelled to all the ordinary hospitals of the country. order that time should not be lost whilst medical ad-The language of the circular is, as it ought to be for such an object, and at such an emergency, reasoning, practical, and plain, in order that there should be no room for misconception or for groundmissioners also advise that when patients suffer from "As there seems reason to apprehend that cholera thirst they should in general be permitted to drink

its re-appearance in this country.

"The Commissioners of Health are anxious to imsioners of Health will afford all the co-operation The Commissioners of Health are anxious to impress upon all persons the important difference that exists between cholera and fever, with respect to the mode of propagation of these epidemic diseases.—
Fever, it is well known, is highly contagious, or easily propagated from one individual to another, while all experience shows that cholera is rarely, if ever, contagious; consequently, the separation of the sick from the healthy—a measure so essential in checking the spread of fever—is not required in cholera.

Since the light will afford all the co-operation and advice in their power to managing committees of public institutions, and to voluntary sanitary associations, whose aid may be most useful in carry ng out the above measures. To fix the necessary precautions and instructions in the minds of the people, it is recommended that copies of the following circular be printed and extensively published and posted under the directions of the local committees:—

"PRECAUTIONS AND INSTRUCTIONS FROM COM-

ing the spread of fever—is not required in cholera, and the friends and relatives of persons attacked with cholera may be under no apprehension of catching the disease, and need not be deterred from affording to the sick, in their own dwellings, every needful assistance and attention.

"This view of the subject has an important bearing upon the measures to be adopted in meeting a visitation of cholera. In contending against epidemic fevers, it has been found necessary to maintain large hospital establishments for the purpose of preliance that the most to public notice in every Remedies be brought and on the country. This Company would satisfact the country. This company would and others, to their themost to public notice in every Remedies be brought and the stable and notice in the full notice in the full

"1. That cholera being rarely, if ever, contagious, there is not risk of infection, as in fever, in leaving the sick in their own dwellings, or in receiver in the sick in their own dwellings, or in receiver in the sick in their own dwellings, or in receiver in the sick in their own dwellings, or in receiver in the sick in their own dwellings, or in receiver in the sick in their own dwellings, or in receiver in the sick in their own dwellings, or in receiver in the sick in their own dwellings, or in receiver in the sick in their own dwellings, or in receiver in the sick in their own dwellings, or in receiver in the sick in their own dwellings, and all articles of diet that from experience are known to have a purgative effect.

"Ayoud purgative medicines, particularly castorious diet in the solid rather than in the liquid form—abstain from fruit, raw and ill-cooked vegetables, pastry, smoked and hard called own the six in the solid rather than in the liquid form—abstain from fruit, raw and ill-cooked vegetables, pastry, smoked and hard called or sour malt drinks, spatric, and all articles of diet that from experience are known to have a purgative effect.

"Ayoud purgative medicines, particularly castorious diet in the solid rather than in the liquid form—abstain from fruit, raw and ill-cooked vegetables, pastry, smoked and hard called or sour malt drinks, pastry, smoked and hard called or sour malt drinks, and all articles of diet that from experience are known to have a purgative effect.

necessarily attendant upon the removal of the patient oil, Seidlitz-powders, and salts. to hospital may lead to loss of life, or of the time "Be very careful that the water used as drink is most valuable for treatment.

"3. That the medical treatment of cholera, being much more simple than that of fever, can be efficiently conducted at the dwellings of the patients, of cholera many persons, both rich and poor, resorted medical many persons, but rich and poor, resorted medical medical many persons, but rich and poor, resorted medical many persons, but rich and poor, resorted medical many persons, but rich and poor, resorted medical medical medical many persons, but rich and poor, resorted medical medi and the required assistance to medical treatment can be as efficiently given by the families and friends of &c., under the false impression that what was somethe sick, as by nurses in hospitals.

"4. That recovery from cholera not being orditive. This is a great error. Stimulants frequently

with, as there is always, particularly in cities, a large class of destitute persons who have neither friends nor the means of support, and to such persons efficient relief cannot be afforded except in hospitals. The non-contagious character of cholera, fortunately, removes all objection to the receiving opersons suffering under the disease, into the ordinary inespitals of the country, whether county infirmaries or fever hospitals, all of which the Commissioners of Health advise should be open, and in readinests or fever hospitals, all of which the Commissioners of Health believe, that besides the advantage of affording prompt and efficient relief collesitute persons afflected with saluary more facts. It would greatly lessen, if not quite remove, effects. It would greatly lessen, if not quite remove, and the side themselves, no longer treated like persons afflected with saluary more facts. It would greatly lessen, if not quite remove, and the side themselves, no longer treated like persons afflected with advices the bowdes, with confidence a strength, that would enable them the better co struggle with the disease.

"A NATURE OF THE ATTACK.—It seems to be a well catabilished fact, and one hat cannot be too strongly impressed upon the minds of the people of the commissioners, and the confidence as trength, that would enable them the better co struggle with the disease.

"By order of the Commissioners, and the conting of the country of the Commissioners, and the conting of the country of the country

anum without medicar account of the Commissioners, "W. H. HOPPER,

strongly impressed upon the minds of the people generally, as upon this fact depends the best mode of successfully contending with the disease, that in nearly all cases of cholera there are two stages of the disease, the first being merely diarrhoea, or simple looseness of the bowels; the second being the stage of sollapse, or blue cholera, marked by cramps, trilure of the circulation, lividity of the skin, cold, claiming perspiration, and all the other well-known symptoms of the disease. In the first stage of the disease medical treatment is frequently successful, in the second stage too often of no avail.

"The first stage, diarrhoea, or mere looseness of the bowels, may be of only a few hours' duration, or may continue from one to several days. It is most important to bear in mind that this diarrhoea may be entirely without pain; indeed, it most frequently is without pain, or merely accompanied with trifling griping or uneasiness. This absence of pain, or the fittle accompanying uneasiness, has too often thrown the patient off his guard, who has thus neglected the warning of his danger, and has allowed the time for The standard country of products and the standard country of the standard coun

FIRE AND INLAND NAVIGATION IN- DR. TOWNSEND'S SARSAPARILLA SURANCE. THE NORTH WESTERN

INSURANCE COMPANY

OF OSWEGO, N. Y. Incorporated in 1832. CAPITAL \$150,000. DIRECTORS: J. Phillips Phænix, New York Seth Grosvenor, James Bogart, Jr. George W. Morton, J. V. L. Pruyn, Albany. D. P. Brewster, Oswego. Luther Wright, S. B. Ludlow, Henry Eagle, Alvin Bronson,

A. P. Grant. James Lyon,

George Fisher, Oswego, President, Samuel Hawley, do. Secretary. THE Undersigned having been appointed AGENT of the above INSURANCE COMPANY, for the District of Montreal, is prepared to take both FIRE and MARINE RISKS, on the most favourable terms. The standing of this Company is as good as any in the United States, and generally known to business men. Their risks are so distributed as not to render the Company liable to suffer by sweeping fires. The reputation of this institution will be maintained by fairness and liberality in the adustment and prompt payment of losses.

GEORGE BENT,

Montreal, 31st Aug. 1848. BRITANNIA LIFE ASSURANCE CO No. 1, Prince's Street, Bank, London. Capital, the William Sterling

Empowered by Special Act of Parliament, 4 Vict., Cap. 9. REDUCED RATES OF PREMIUM—HALF
CREDIT RATES OF PREMIUM.

THE great and decided success which has
attended this Institution has induced the
Directors to REDUCE the RATES originally Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower.

Between the Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower.

Between the Reduction is to enable parties that there of any other Assurance is to be one of the most valuable preparations of the Sarsaparilla in the morket. Rates of Premium than those of any other Assurance Company transacting business in Canada. The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America, without affecting their reset in

THE MOST EXTRAORDINARY MEDICINE I

PRICE ONE DOLLAR. THIS EXTRACT is put up in quart bottles; it is six times cheaper, pleasanter, and war-ranted superior to any sold. It cures disease without vomiting, purging, sickening, or debilitating the patient.

GREAT SPRING AND SUMMER MEDICINE. The great beauty and superiority of this Sarsa-parilla over all other Medicine is, whilst it Eraparila over all other Medicine is, whilst it Eradicates Disease it invigorates the Body. It is one of the very best Spring and Summer Medicines ever known; it not only purifies the whole system and strengthens the person but it Creates New, Pure and Rich Blood; a power possessed by no other Medicine. And in this lies the grand secret of its wonderful success. It has performed within the part, two years more than 25 000 error of in the past two years more than 35,000 cures of Severe Cases of Disease; at least 5,000 of these were considered incurable. More than 3,000 cases of Chronic Rheumatism;

2,000 cases of Dyspepsia; 400 cases of General Debility and Want of Energy;
7,000 cases of the different Female Complaints; 2,000 cases of Scrofula;
1,500 cases of the Liver Complaint;
2,500 cases of Disease of the Kidneys and
Dropsy;
3,000 cases of Consumption.
And Thousands of cases of Disease of the Blood,

viz: Ulcers, Erysipelas, Salt Rheum, Pimples on the Face, &c., &c.—Together with numerous cases of Sick Headache, Pain in the Side and Chest, Spinal affections, &c., &c. This, we are aware, must appear incredible, but This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable druggists in 'Newark, N. J., informs us that he can refer to more than 50 cases in that place alone. There are thousands of cases in the City of New York, and hundreds in Albany and in all of the other cities of the Union, which we will refer to with pleasure, and to men of character. It is the best medicine for the Preventive of Disease known. It undoubtedly saved he lives of more than

5,000 CHILDREN THE PAST SEASON!

As it removed the cause of Disease, and prepared them for the Summer season.

OPINIONS OF PHYSICIANS. HP Puling, M. D.

J. WILSON, M. D. R. B. Briggs, M. D. P. E. Elmendorf, M. D. A :brny, April 1, 1845. The following is from one of the most respectable physicians on Long Island:—

Greenport, July 10,1846.

Dr. Townsend: Dear Sir—It is with satisfacion that I say to you, that I have recently witnessed, in several cases, the most beneficial results from the use of your Extract of Sarsaparilla. Being engaged in the practice of medicine, I have

Respectfully yours, S. C. Preston, M. D. This is to certify that we, the undersigned Practicing Thompsonian Physicians of the City of Albany, have frequently prescribed Dr. Townsend's Compound Extract of Sarsaparilla, and from its known qualities, would recommendit to the public for mercurial, Scrofulous, and other cu-

rescribed it in several cases, and never without enefit. In the removal of diseases arising from

taneous diseases, in preference to any of the advertised remedies now in use.

A. W. Russell, T. P.

Wm. B. Stanton, T. P. Albany, April 7, 1847. UNITED STATES OFFICER,
Capt. G. W. McLean, of the United States
navy, and member of the New Jersey Legislature,

s kindly sent us the following certificate. It tells its own story. RAHWAY, Jan 25, 1847. A year since I was taken with the Influenza, and my whole system left in a debilitated state. Iwas induced to try Dr. Townsend's Sarsaparilla, much relieved, and attribute it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any

G. W McLEAN, Late U. S N.

John Jackson, Esq., Editor of the Rahway Re ublican, published the above certificate, and re-marks in an Editorial as follows:—
The success of Dr. Townsend's preparation of Sarsaparilla, appears to be of the most extraordinary character. We publish to-day two certificates in its behalf, one from Captain McLean, of this town, and one from the Rev. Mr. White, of Staten Island, a gentleman well known in Rahway. Captain McLean believes the medicine to have saved his life, and Mr. White seems to enertain an equally strong confidence in its officers. ertain an equally strong confidence in its efficacy.
Intelligent men like those would not praise so
strongly what they did not fully believe to de-

SCROFULA CURED.

This certificate was handed into Dr. Townsend's office this week, and conclusively proves that his Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented. THREE CHILDREN. Dr. Townsend—Dear Sir: I have the pleasure o inform you that three of my children have been
