It would be impossible to meet
you this week, as our Fair is on Thursday, and
the following one it will not do to be from home
as it is the same week, so that at present I can only
engage for Tuesday fortnight's meeting or
permitted; when you write please say what
day in Boal you intend staying at, and
also the hour you will be there as I shall
regulate my time of starting accordingly,
as I shall ride over. I shall not name
our intended meeting to any person so
that I shall shun all enquiries about
it, and also the possibility of being annoy-

your conjectures as to the cause of my being
absent when you were here; I have for
some time been anxious to visit the Highlands of
Scotland and Mr Stoney mentioned on evening
that he intended going in company with
a friend whom he was to meet at Aberdeen
I at that time expressed a desire to accompany them
provided it would be agreeable to him and
his friend, and that I would start at their
convenience. I do think you had a
fortunate escape, and as for Stals it was
certainly quite miraculous, depend upon it
if you had been carried (and of that I never
had a doubt) you would have been severely punished.
For my part I think it any thing but
fair or honourable to hesitate to make a
public apology to an individual, however
much disliked he may be, of whom you

may have published statements of a highly
injurious character, and which statements
you had subsequently very good reason to
believe to be unfounded or greatly exaggerated.

I wish I could accept your invitation to visit you just now, but I very much fear I shall have to stick by the Shop this summer, as I am badly off for shopmen; my Brother Geo has been unwell for some time and not able to attend to Business; and my youngest Boy is also very ill - He has not been at the Shop these five weeks, so that, for the present at least, I must be content myself with a town life.

I am sorry you should have been

must have the most contemptible opinion of such a
people, and it is no wonder indeed, that they are
cuffed and kicked like spaniels, when they become
too obstinate and complacent for it. but I
do not know of better things of them yet; Stamford you

know was as much under the influence of the Whigs
of Exeter, and yet the people there, gallantly shook off
the yoke of his overbearing & insulting tyranny, and
why need I go far from home for a sample of successful
resistance to local impudences. Caribb was at one

of her property, & I know no one here that I could
take the liberty to speak to about it. It strikes
me, however, that friend Tom Fawcett can
give Garrison some intelligence respecting
Mr. Watson's reputation under it.

We had a bit of a stir yesterday afternoon with
a few of the Churchists, a meeting convened by Circular was
called by the no-conscience people to consider the propriety of
petition that the speakers should be heard at the Bar of
the Commons & the ultras had got wind of it &
the enclosed will more sufficiently explain the
~~subject~~ affair. Metcal was present among
the cotton Gentry so he will be able to report to
you what took place at the Coffa house. Mr. G. D. S. had
prepared some resolutions on the subject to
propose at the last meeting of the Council but
for some cause or other which I have not
learned he did not, the Deacons have always

been, you know, deficient in moral courage

to be fast approaching to torpor again
indeed the knowing ones now consider
that their conversion to Reform was sincere
but that it was only the consequence of
timidity arising out of the excitement

I shall be glad to hear from you
you have time to write a line or two by this

Concord, Saturday Morning,

My dear Abraham

Drummond is just about to start for Wiltshire. & I have hardly a moment to say how sorry I shall be that you will be here & that I shall not have the pleasure of seeing you. Your father told me yesterday, a day before, that you intend being here on Tuesday week, or Sunday - that is to-morrow week. I have been for Stockton on my marriage trip, it is arranged for the evening to take place on

Tuesday the 23rd Feb. I am intended
to ramble about the neighbourhood
for about ten days & you see
it is the day you at present
propose leaving home. Now
I wish you would defer your
visit till our return, as I think
he so glad to see you —

I have no particular news.
Curish has arrived at home
& quite well. Still, you will
have heard. In this time, has
again got into a trap, he
intends to fight the persons in

the Comb above with affidavits.
I hope he may escape such
fun, but I much doubt it.
The "Operation" is brisk as
ever. The enthusiasm nearly
as great in favour of the
Ministerial Corporation Bill
as on the occasion of
first introduction of the
great measure of Reform.
The registration will be
made quite complete —

Forgive this short note
