Gentlemen
Enclosed is copy our last 1th Ult^o since when being without your favors we have at present only to inform you that our latest advices from Spain are favourable to the Artful of Wheat, & that altho' the Crops in this Country have been unusually abundant - the Season of Harvest has been so late, as to have occasion'd an Advance in the Price of Wheat which is now selling at

Wash
is likely to rise - these circumstances we hope may
operate in favour of your Province; as we understand
your crops have also been great. In the Market
for Peltries there is not any thing new - appearances are
discouraging rather than otherwise. Your fear will continue
until the Peltries on the Continent become more settled.

From a late advance in the Article of Wool of from
20 to 30 p Cent all kinds of Woollen Goods must must go out
much dearer the ensuing Spring - we are told Strouds
will be 10 p per piece dearer than last Spring - and we
presume Goods of every description will also go out much
higher, as no branch of our Manufactures can keep pace
with the demands on them - which we now mention
that you may avail yourselves of making any purchase
you can of Articles that may be on Sale thro' the Winter
Hoping we may soon receive agreeable advices from you

We remain Respectfully Gentlemen
Your most Obedt Servts
Benitwood Parry
