Mrs. Parker Gerard & Co

Three Rivers 30 Jan^y 1800

Gen^l Your kind letter of 27th Inst^o
is before me and observe the contents, I have ordered
about 14 Mr Bushels Wheat but as the people here
are returning the Country to purchase Wheat

I cannot as yet ascertain what the price will be
 the Inhabitants in this District have got into
 the Custom of giving their Wheat to the Country
 Merchants and fixing the price at a certain period
 and there is no probability of making them act
 otherwise If agreeable to you I think it would be
 best method, that our Customers should collect all
 they can and fix the Curt. price at a certain period

You will please pay Mr James Nucle £100 by
 as it will be pretty near the Cash. I have advanced for
 the Wheat, with what I had before, I am truly
 Yours

 for some time past prevented the Arrival here this
 Moment of the Pot & Pearl Ashes from Montreal
 intended to be shipped to your address by Miss Grant's
 Lapram boat, in a vessel from this to London by this
 unfortunate circumstance they are shut out from Freight
 on all the Vessels about to sail and from the late part of the
 Season in all probably will not effect a Shipment this
 Year. This information We have thought necessary to
 forward for your Government as Agents for their
