

Montreal 4th March 1807
Messrs. McKim, Aldam & Co

Dear Sirs

The Quebec Post just come in brings us
the letters enclosed. which as they relate entirely to the Contract
for Flour we send you - You will please return them
by the Beaver. as we shall have to wait by the Montreal
Post - We have on the whole cause to be satisfied with
the Conduct with which we have been treated - & we
doubt not but the Business will still wind up advan-
tageously tho' we are inclined to think the greater part
of the Contract might have been got at 40s. or perhaps above
that Price - this however is more matter of opinion - We
have spoken to Mr. Galsworthy & stopped Mr. DuRoi - till further
orders -

Mr Wells is come in this morning - The
Treaty of Commerce betwixt Great Britain & the U. S. was signed
in London the 31st Dec^r - The contents not transpired -
no other news of importance In haste

We are Dear Sirs

Letters enclosed.

Dear Sir

We return you the Certificates for Half Pay of

Capt. Osborn & Lieut. Fraser - as they are not exactly in proper form;

In the first place - the Justice who administers the Oath should mention his

place of Residence of the District in which he acts - of the Certificate

below the affidavit, if meant as the opinion of the Justice, should be written

before he signs his name. How is it that there is no such thing as Capt

Osborn's? - And further - the Declaration written on the back

of the Certificate - should be separate ~~of~~ as they go to different

Offices; - the Declaration, consequently, must be more particular in

designating the Corps to w^{ch} they belong, & probably will also require

to be sworn to as well as the others. - For your Govern^t in future see

send you the Form to be followed "after the 24th of Dec: 1805"

Messrs. McKim, Johnson & Co. - Montreal 21st March 1855

Dear Sir

Inclosed you have the answer of Messrs. Burns, Messing to our letter requesting them to give a reply for Newfoundland - and the remarks which you require respecting the appointment of the Surgeon - we have no doubt but the terms are as favorable as can be got - and we have written to B.W. that we had no doubt of your closing with them - but that had been left for your determination, which should be transmitted to them without loss of time - you will therefore write them decidedly by the next Post, from what we have written - we do not suppose Capt. Martin will listen before he has your decision, to any other offer. —

We hope that your H.M.C. is returned to Terrebonne, and the story is in circulation that he has raised the price of wheat in all the lower district. — We are truly

Dear Sir
