My dear Noel Buxton,

Many thanks for your letter of the 12th October. I remember our talk about the German Colonies. I am President of the Universities Mission to Central Africa, and am naturally very anxious about the present position, as three of our Dioceses are in Tanganyika. However, we are already in touch with Lord Halifax about it, and he knows our position, not only from the Memorandum which we have sent to him, but from personal interviews with the Bishop of Masasi, who was here a couple of months ago. The Bishop of Zanzibar will be back at the end of the present month, and will also be seeing Lord Halifax.

With kind regards,

Yours very truly,

Lord Noel Buxton,

My dear Noel-Buxton.

Thank you for your letter & copy of your excellent speech. I agree with you & find most of your arguments unanswerable, but I am afraid I cannot help you at present. I am presiding over a committee wh. is trying to find the greatest measure of agreement as to future dealing with Germany. This Polish question is still before us. Probably all of us individually take your view but a good deal of evidence has been before us on the following

lines:—
