

13. rue Laffitte.

Paris.

My dear Sir,

I did see you ~~only~~ last on the Wednesday 17th February since I have not heard from you, I am afraid that you have been indisposed, but the object of the present is to beg you, if you are well, to remember me for the books that you did promise to send me. id est.

- 1^o Proceedings of the Zoological Society - years 1871, 1872, 1873 & 1874 if complete with plates uncoloured.
- 2^o Swainson's Animals in Menagerie.
- 3^o The monography of Genus *Spermophilus* marinus. by P. L. Selater published in *Ibis* (1871)
- 4^o The monography of Genus *Areolus*, published by yourself, in the same *Ibis* (1868)

You were so kind to promise me to inform you if it was possible to take two subscriptions ^{in your name} to the *Ibis* of L. S. to let me have the publications of the Society as soon as published, & to send me the

regulations of the said Society.

Had you any answer for the determination
of my birds?

I wish you to be kind enough to send
me the books as soon as possible, because I am
leaving Paris for the country at the end of April
and am obliged to give the books to the binder
at least always, some fifteen days.

Hoping to hear soon from you,

I am,

Dear Sir,

Yours truly,

Mr Billard fiding

Paris, Saturday, April 13th 1875.
