BLACKER - WOOD LIBRARY BOOK WORM

Dear Ann,

Thank you so very much for letting me look around the rare book room, and for explaining lots of things to me, and showing me the feather book. It was very fascinating and exciting. I saw so many of the books that I've read about or seen pictures from. I'm sure one could spend a decade just looking at the bindings and covers of the books, let alone the books themselves which could occupy a lifetime.

Thanks again. It was very kind of you.

Yours Sincerely,
Erick Greene.
